Tourette Syndrome Support Groups at Area Hospitals

April 29, 2010- Families of children with Tourette Syndrome and adults dealing with the disorder are invited to attend support group meetings hosted by the Tourette Syndrome Association of New Jersey. TSANJ is a function of the New Jersey Center for Tourette Syndrome and Associated Disorders.

Support groups are designed to focus on coping strategies for TS families. Tourette Syndrome is a neurological disorder affecting as many as 1 in 100 individuals. Many individuals with TS suffer with associated conditions including ADHD, OCD, learning disabilities, depression, anxiety and rage. Living with TS can be complicated, support groups are in place throughout the state to help. For more information, call 908-575-7350.
